

# LEED

IN LEED V4 THE USE OF ALUMINUM EXTRUSIONS CAN HELP BUILDINGS EARN LEED POINTS IN THE FOLLOWING CATEGORIES:

LEED V4 : L'UTILISATION D'EXTRUSIONS D'ALUMINIUM DANS LES PROJETS PEUT AIDER À GAGNER LES POINTS LEED DANS LES CATÉGORIES SUIVANTES :

---

## MATERIALS AND RESSOURCES ( MR )

- Environmental Product Declarations
- Sourcing of Raw Materials
- Material Ingredients

“ Life Cycle Assessment Report The Aluminum Association ”

“ Inter NACHI’s Estimated Life Expectancy Chart ”

“ Aluminum is 100% Recyclable ”

## INDOOR ENVIRONMENTAL QUALITY ( EQ )

- Low-emitting materials

“ Aluminum Powder Coatings VOC free ”

## INNOVATION ( IN )

- Innovation

“ BIOPHILIC DESIGN : Natural design elements help create a calming environment easing minds and boosting façade performance article ”

## ENERGY AND ATMOSPHERE ( EA )

- Minimum Energy Performance
- Optimized Energy Performance

“ Thermal Performance Aluminum Cladding ”
